

OMNICARE CLINICAL RESEARCH LICENSES LIQUENTCONNECT TO CREATE ADDED VALUE FOR CLIENTS

Horsham, PA – January 26, 2010: LIQUENT, Inc. today announced Omnicare Clinical Research has licensed *LiquentConnect*® - a hosted software as a service (SaaS) solution used to quickly and easily create, review, amend and submit regulatory dossiers. Omnicare Clinical Research is a leading Phase I to IV global contract research organization serving the biopharmaceutical and medical device industries.

LiquentConnect enables organizations to produce their own eCTD and non electronic submissions without investing in IT infrastructure. All software and hardware upgrades are managed and executed by LIQUENT. *LiquentConnect* is fully executable for eCTD, NeeS and CTD publishing.

“As portions of the industry shift toward SaaS, we are pleased to offer *LiquentConnect*, a SaaS solution publishing tool,” said Rick Riegel, LIQUENT’s Chief Executive Officer. “LIQUENT is committed to providing value-add solutions to our customers. *LiquentConnect* provides reliable, secure access to your dossiers from anywhere with an internet connection.”

Omnicare Clinical Research selected LIQUENT and will be utilizing *LiquentConnect* as its hosted solution provider due to LIQUENT’s depth of expertise within the regulatory and life-sciences industry. The benefits of implementing a fully-managed SaaS solution outweighed the time and resource investment required for other solutions.

“*LiquentConnect* provides our organization and our customers with project submission data that is safe and secure. LIQUENT provided us with a solution that is not only flexible, but one that we believe can expand to meet our needs and offer an efficient and cost-effective tool to address a variety of situations, from eCTD to NeeS to paper.” said Dr. Martine Dehlinger-Kremer, Vice President of Global Regulatory Affairs for Omnicare Clinical Research.
